Dear Sir

On behalve of the Chili Comitée Amstelveen we write to you, because of the events concerning decree 2346.

We think that the arrests and exiles of the trade-union leaders and all the other measures which are taken in Chile to liquidate the trade-unions, may not pass unperceived.

Therefore we ask your organization to use all the power you have at your service to prove the situation.

We want the release of the leaders and the right of existence of the trade-unions.

Yours Faithfully
